

THE ORANGEBURG NEWS

J. FELDER MYERS—EDITOR,
 GEORGE BOLIVER,
 FINANCIAL AND BUSINESS MANAGER.
 SATURDAY, JAN. 14, 1871.

LAW OF NEWSPAPERS.

1. Any person who takes a paper regularly from the post office—whether directed to his name or another—or whether he has subscribed or not, is responsible for the pay.
 2. If a person orders his paper discontinued, he must pay all arrears, or the publisher may continue to send it until payment is made, and collect the whole amount, whether it is taken from the office or not.
 3. If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send it, the subscriber is bound to pay for it, if he takes it out of the post office. The law proceeds on the ground that a man must pay for what he uses.
 4. The Courts have decided that refusing to take newspapers and periodicals from the post-office, or removing and leaving them uncollected for a long time, is evidence of intentional fraud.

We dislike to become tiresome to our readers. On the contrary, it is our desire to present them at all times with such matter as is most likely to attract and interest their minds. But we beg their indulgence for alluding to the Free Common Schools of this County again. They, some of them, are not being conducted in a proper manner. The discipline observed in many of them is decidedly wrong and non-progressive. Now we want each and every teacher of the Free Schools of this County to remember that they are public servants, and that any neglect or shirking of duty on their part, will be criticised by this paper. The School Commissioner is doing the best he can. If the Trustees and teachers will do likewise, much good will result from our public institutions of learning and education.

We demand in the name of the people that the School Trustees and teachers do perform their whole duty! Some day we are going to take it upon ourselves to slip around to some of these School Houses, and if appearances are against the Teachers, we shall come back and say so. Better then be getting things to rights. We are in earnest. Our children are longing for an education, and they must have it.

OUR WOMEN.—In describing the characteristics of the ladies of the different cities of the Union in the Galaxy, Junius Henri Browne says of the Charleston girls:

Charleston is sadly altered from what it was, and many of the fair women who gave laws and tone to its exclusive society are no longer there. The Palmetto City, as it once delighted to style itself, had much of what is ascribed to the old school of forms, customs and manners, and its representative woman still has faith in and keeps them up. The fair Charlestonians have mobile, animated and attractive, rather than regularly handsome faces, and tend to brown eyes and brown hair. Their noses are slender, with thin, sensitive nostrils, and their mouth often seem a little drawn, as if from too much suppression. This is something singular, since they are, as a class, impulsive, and even mercurial, perhaps from the fact that those who lay claim to birth and blood—and there are few who do not—believe themselves descended from Huguenot families. This French extraction is as famous in Charleston as Mayflower origin is in Boston, and is not infrequently, I suspect, just as problematical.

Problematical the devil! How is it so Mr. Junius Henri Browne, when every one of them can trace their ancestry right back to the beginning of the "Huguenot families?"

Problematical indeed! Why the very thought is shocking. Mr. Browne ought to take another trip South. For instance, he ought to visit some of our country villages. 'Twill never do for such a critical observer as this Junius Henri Browne to miss seeing the Huguenots in the country. Send him this side Mr. Galaxy.

Magazines, &c.

Among the most attractive of all papers that are upon our table is the *Atlantic Press*. The object of it is to furnish a medium which shall be a fit exponent of progress, and of the beautiful in Printing and the kindred arts. The latest and most improved machinery, and the very highest order of mechanical and artistic talent is promised to be taxed to the utmost to produce a sheet—as nearly as possible—perfect in typography and illustration. Its literary, original and selected matter, is unexceptionable. Let every lady and gentleman subscribe for this splendid paper. The illustrations are worth the money. \$2.50 per

year. Address James Sifton & Co. 23 Liberty St. New York.

THE OLD GUARD.—The December number of this Monthly is filled with choice reading matter. English & Co., Publishers, New York. Price only \$3.00 a year.

AMERICAN STOCK JOURNAL.—The December number comes to us with a new and handsomely engraved cover, and an attractive table of contents, varied to suit the tastes of almost every Farmer, Stock Breeder, Dairyman, Poultry Keeper, &c., while the splendid Premiums offered make it an inducement to all to work for it. Specimen copies, show bills, &c., sent free. Address N. P. BOYER & Co., Publishers, Parkersburg, Chester County, Pa.

Peterson's Ladies' Magazine is already out for February. It is a superb number. We advise our lady readers to subscribe for it at once. Price \$2 a year. Herald and Peterson \$4.50.

THE RURAL CAROLINIAN.—This sterling and valuable agricultural journal for January is promptly up to time. In all respects it is equal to any of its predecessors, and in the quantity and quality of its articles, we regard it superior. It was awarded at the late Columbia Fair a premium as being the best Southern agricultural journal. In its get-up, it is superior to any agricultural journal in the United States, while the value and quality of its contents are inferior to none. It is the interest as well as the duty of every Southern man, whether he be a planter or not, to subscribe to it, as there is interesting matter in it for all classes of readers, and such a publication should be supported by all who feel any interest in the success of Southern men and Southern enterprise.

It is published by Walker, Evans & Cogswell, Charleston, S. C., at the very low price of \$3.00 per annum.

DIE MODERNWEIT.—This splendid illustrated magazine for fashions and fancy work, is on our table. It is equal, if not superior, to any of the previous numbers. It is published on the 1st and 15th of each month at Berlin, and is issued in this country by S. T. Taylor, importer of ladies fashions, 361 Canal St., New York. As Berlin, since Paris has been shut out from the world, is the seat of the fashions, all those who desire to see the latest changes in the style and improvement of ladies apparel, would do well to subscribe to it.

Subscription price \$3.00 a year. THE XIX CENTURY.—This Magazine, published in Charleston, has been purchased by Messrs. J. G. Livingston & Co., and will hereafter be edited by the principal of the firm.

Notice to Creditors.—All Persons having Demands against the Estate of N. F. Herlong, deceased, will hand them to the undersigned properly attested, on or before the 15th day of February, 1871, or payment will be made.

J. M. HERLONG, Administrator.

For Sale Cheap!

And Eighty-seven other Grand Prizes.

Aggregate value of which is 95 THOUSAND DOLLARS!

A Strong Endorsement from a Reliable Source.

[From the Daily Chronicle and Sentinel, Augusta, Ga., Nov. 21.]

We desire to direct special attention to the fact that every purchaser of a ticket from the above named company, will receive a beautiful chromo, fully worth the price paid for the ticket.

We have examined these pictures and find them really beautiful and valuable works of art. The large steel engravings, "The Marriage of Pocahontas" and "The Landing of Columbus," and a beautiful chromo, "An American Autumn," will be beautiful and attractive ornaments for any gentleman's parlor.

This is decidedly the most valuable and attractive property in the South, and comprises about 700 acres of desirable lands in and near the village of Aiken, and is divided into 94 lots, villa sites and farms. The distribution of this property will be made as follows:

Special attention is called to the following points:

1. That each purchaser of a ticket has not only a chance at one of the valuable prizes, but will receive a splendid steel engraving fully worth the cost of the ticket.

2. That the distribution is to take place under the direction and control of disinterested and impartial gentlemen, of well known position and integrity.

3. The demand for lands in and around Aiken is such that any one drawing a prize will find no difficulty in advantageously disposing of the property, should he not wish to settle on it permanently. The titles to the property are indisputable.

This is no bogus concern. Mr. J. C. DERBY, the General Manager, is well and favorably known throughout the United States as an experienced and successful book publisher in New York. For more than two years he has been a resident of Aiken, and for the past twelve months has been at the head of a large publishing house in this city. We have known him long and well, and feel no hesitation in saying that he would not be connected with any enterprise which was not entirely meritorious, and we are quite confident that all who purchase tickets in this great land sale will be fully compensated for the amount invested.

The drawing will be so arranged as to secure the utmost fairness in the distribution of the prizes, and each ticket holder may rest assured that his interests will be fully and fearfully protected.

Mr. J. W. MOSLEY, of Orangeburg, S. C., will receive Orders for Shares.

Eighteen Years of Practical Success.

INTRODUCED IN 1852. PATENTED Dec. 20, 1859.

WHANN'S

RAW BONE

SUPERPHOSPAATE.

The Great Fertilizer for Cotton and all Crops.

The unparalleled success of this GREAT FERTILIZER on ALL CROPS, proves it to be the BEST and CHEAPEST MANURE now offered in the Market. It has been used by many of the most Eminent Planters in the South, and

In every single instance it has given Entire Satisfaction.

On COTTON its effects have been particularly marked. It is no rare thing for WHANN'S PHOSPHATE to increase the yield from ONE HUNDRED TO TWO HUNDRED PER CENT., or even more!

Mr. GEO. C. DIXON, an eminent planter of Cameron, Ga., in a letter to the Banner & Planter, says that in an experiment with seven leading Superphosphates and Guanos, the WHANN'S proved itself the best of all those tried, paying a net profit at the low market rate of \$20.90 per acre of Cotton.

A Copy of Mr. DIXON'S LETTER furnished on application.

SEIEGER'S

UNADULTERATED ALE AND

LAGER BEER.

LAGER BEER, CONTAINING COPPER, RAS and ALE doctored with Salt, Lime and Alum, are the latest adulterations discovered in New-York.

Professor Mapes of New-York, analyzed the Beer from a dozen different Breweries, and all were found adulterated with noxious substance. It is said that the sale of Drugs to Brewers, is a profitable part of the trade. This is perfectly infatuous (Coccus indicus (ash berry) aux-vonica, (dog button) from which strychnine is obtained, are some of the deleterious substances found in Beer! These are potent poisons, and the Brewer found using them should be drowned at once in one of his own vats.

P. 8.—I am willing to be drowned in my own vats, if any impurities should be found in my Beer.

I shall continue to make a healthful Beverage, so that it may be drank by the most delicate without the least danger.

JOHN C. SEIEGERS, Columbia, S. C.
